

Sulaiman Abdul Rahman Bin Masghani

Art Lead/Senior Technical Artist/VFX Artist

✉ sulaimanabdrahman98@gmail.com 📍 Singapore 🌐 <https://sulaimanabdrah98.github.io/portfolio-site/>

Mighty Bear Games - Technical Artist(2019-2021)

- Rigging - Created and maintained 50+ animation-ready rigs
- Game FX & Shaders - Developed real-time effects and custom shaders
- Procedural Tools - Authored Houdini tools for asset generation and workflows
- Asset Integration - Integrated art assets into Unity-based game builds
- Optimisation - Profiled and optimised assets and scenes for performance
- Tool Development - Built custom tools for Unity, Maya, and Blender
- Leadership - Led the technical art team on my second project
- Documentation - Maintained technical documentation for pipelines and tools

Flatter Than Earth - Senior Technical Artist(2022-2024)

- Performance Optimization - Profiling and optimisation of assets and scenes for runtime efficiency
- Pipeline & Integration - Integration of art assets and third-party plugins into the engine
- Tool & System Development - Creation of automation systems and custom in-house tools to streamline workflows
- Technical Art - Shader development and implementation, real-time VFX creation
- Documentation - Clear documentation of tools, pipelines, and best practices for team use

Bythen - Senior Technical Artist/VFX Artist(2024-2025)

- Shader & VFX Development - Created custom shaders and real-time visual effects
- Rendering Pipeline - Integrated and optimized assets within the rendering pipeline
- Tool & System Development - Built tools to streamline production workflows
- Simulation & Physics - Implemented dynamic simulations and physics-based systems
- Rigging - Supported character and asset rigging tasks
- Team Collaboration - Guided 3D asset team with technical direction and support
- Documentation - Authored technical documentation for tools and processes

Ash Games Studios - Art Lead/Senior Technical Artist/VFX Artist(2025-Present)

- Management - Manage art team's tasks and provide technical guidance to ensure efficiency in a fast paced environment
- Leadership - Coordinate with management and other departments regarding decisions related to art
- Rendering/Shaders - Tackle rendering challenges such as combining 2D and 3D elements and creating shaders to simulate wind/cloth physics
- VFX - Created multiple gameplay VFX elements
- Tools - Created tools to improve workflow and efficiency
- Implementation: Implemented art assets into gameplay including writing scripts

EDUCATION

3dsense Media School

Diploma in 3D Animation and Visual Effects

2018-2019

SKILLS

- Game Engines - Unity/Unreal
- DCC/3D - Blender/Maya/Houdini/EmberGen
- Texturing - Substance Painter/Substance Designer
- Illustration/Image - Photoshop/Krita
- Video/Compositing - DaVinci Resolve/Nuke/Premiere Pro
- Version Control - Git
- Programming - C#/Python/HLSL/Javascript/VEX/HTML/CSS/MQL
